OSO-SCHEDULE (20 m Telescope) : May 2008

DATE	UT: 0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24
1	Thursday	12:07																							
2	Friday	12:07																							
3	Saturday	12:07																							
4	Sunday	12:07																							
5	Monday	12:07						Maintenance							GEO-VLBI										
6	Tuesday	GEO-VLBI																		mm-VLBI					
7	Wednesday	mm-VLBI																							
8	Thursday	mm-VLBI																							
9	Friday	mm-VLBI																							
10	Saturday	mm-VLBI																							
11	Sunday	mm-VLBI																							
12	Monday	mm-VLBI																							
13	Tuesday	mm-VLBI																							
14	Wednesday	Maintenance						14:07																	
15	Thursday	14:07																							
16	Friday	14:07																							
17	Saturday	14:07																							
18	Sunday	14:07																							
19	Monday	14:07									Maintenance														
20	Tuesday	Maintenance												07:07											
21	Wednesday	07:07																							
22	Thursday	07:07						E-VLBI																	
23	Friday	07:07																							
24	Saturday	07:07																							
25	Sunday	07:07																							
26	Monday	07:07																							
27	Tuesday	07:07																							
28	Wednesday							Maintenance																	
29	Thursday	Maintenance																							
30	Friday	Maintenance						EVN																	
31	Saturday	EVN																							
	UT: 0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24
								LST=0h												LST=12h					
	07:07	**Buckle, Richer.**							**Investigating small group star formation.**																
	14:07	**Troitsky et al.**							**A study of high-mass star forming regions at different**																
									stages of evolution.
