OSO-SCHEDULE (20 m Telescope) : February 2007

DATE	UT:0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24
1	Thursday	08:06																							
2	Friday	08:06																							
3	Saturday	08:06																							
4	Sunday	08:06																							
5	Monday	08:06														GEO-VLBI									
6	Tuesday	GEO-VLBI																							
7	Wednesday																			Maintenance					
8	Thursday	Maintenance									04:06														
9	Friday	04:06																							
10	Saturday	04:06																							
11	Sunday	04:06																							
12	Monday	04:06														GEO-VLBI									
13	Tuesday	GEO-VLBI																		Maintenance					
14	Wednesday	Maintenance									04:06														
15	Thursday	04:06																							
16	Friday	04:06																							
17	Saturday	04:06																							
18	Sunday	04:06																							
19	Monday	04:06								Maintenance															
20	Tuesday	Maintenance									16:05														
21	Wednesday	16:05																							
22	Thursday	16:05																			01:06				
23	Friday	01:06										16:05									01:06				
24	Saturday	01:06										16:05									01:06				
25	Sunday	01:06										16:05									01:06				
26	Monday	01:06										16:05				GEO-VLBI									
27	Tuesday	GEO-VLBI																		Maintenance					
28	Wednesday	Maintenance								15:06			03:06												
	UT:	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24
		LST=12h											LST=0h												

16:05	**Rydbeck** — **Search for mega SiO masers in AGN accretion discs.**
01:06	**Aalto et al.** — **Counterrotating and Diffuse Molecular Gas in the Interacting Galaxy NGC 5218.**
03:06	**Buckle et al.** — **Chemical differentiation in clumpy cloud cores.**
04:06	**Geppert et al.** — **Investigation of interstellar methanol formation by posterior isotope labelling observations.**
08:06	**Ramstedt et al.** — **The mass-loss and chemistry of S-type AGB stars.**
15:06	**Perez-Beaup... et al.** — **Is there really an XDR in the nearby galaxy NGC5033?**
