WELCOME TO OUR SUMMER SCHOOL!

The **H2020 project NAIADES** and **Chalmers Battery Initiative** are pleased to announce a 4-day Summer School on “**Sodium-ion Batteries: Fundamentals & Applications**” aimed at PhD students, postdocs, and industry researchers alike.

Purpose and Aim: Spread knowledge about this exciting new battery technology.

Content: Lectures by world-leading researchers in the area, exercises for individual and deeper learning, and ample free-time for battery discussions and networking.

Prerequisites: MSc in Chemistry, Physics, Materials Science, or relevant battery expertise.

Examination and Credits: Attendance and solved exercises account for 3 hec. A certificate will be issued by the organizers upon request.

Time and Place: ca. 12h May 30th – ca. 13h June 2nd 2017.

Sjösportgården, Smögen, West Coast of Sweden. Nearest airport is Landvetter (Göteborg) (GOT), busses to Smögen depart from Göteborg city centre.

Cost and Sponsoring: The Summer School is sponsored both by H2020/NAIADES and by Chalmers Battery Initiative which is why we can keep costs low. The attendance fees include lodging (in 4-bed rooms), full boarding, and all conference facilities and activities.

<i>Fees:</i>	Partners of NAIADES	€250
<i>(excl. VAT)</i>	Academia	€350
	Industry	€450

Please observe: For no-shows the full cost will be charged!

Attendance and Registration: The number of participants is strictly limited to 24. Therefore anyone interested in attending has to send a **declaration of interest** with a brief motivation why to be selected. PhD students should also prepare for a **supporting letter**. The documents should be sent to patrik.johansson@chalmers.se **March 31st at the latest**, for selection. A letter of confirmation of acceptance with registration details will be sent shortly thereafter to those shortlisted for the summer school.

Most welcome and please spread the word about this event!
