

# OSO-SCHEDULE (20 m Telescope) : May 2006

DATE	UT: 0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24
1	Monday	14:05																							
2	Tuesday	14:05																							
3	Wednesday	14:05																							
4	Thursday	14:05									mm-VLBI														
5	Friday	mm-VLBI																							
6	Saturday	mm-VLBI																							
7	Sunday	mm-VLBI																							
8	Monday	mm-VLBI									Maintenance														
9	Tuesday	Maintenance									09:05														
10	Wednesday	09:05																							
11	Thursday	09:05																							
12	Friday	09:05																							
13	Saturday	09:05																							
14	Sunday	09:05																							
15	Monday	09:05																							
16	Tuesday	09:05																							
17	Wednesday	09:05									16:05														
18	Thursday	16:05																							
19	Friday	16:05																							
20	Saturday	16:05																							
21	Sunday																								
22	Monday										Maintenance														
23	Tuesday	Maintenance									14:05														
24	Wednesday	14:05																							
25	Thursday																								
26	Friday																								
27	Saturday																								
28	Sunday																								
29	Monday										GEO-VLBI														
30	Tuesday	GEO-VLBI																							
31	Wednesday	Installation of new antenna control system.
