OSO 20 m schedule — November 2008

Date		UT / LST	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23
		LST										12												0		
2008-11-01	Saturday																									
2008-11-02	Sunday		EVN session 3																							
2008-11-03	Monday															Part 5: 1.3 cm										
2008-11-04	Tuesday																									
2008-11-05	Wednesday																									
2008-11-06	Thursday																									
2008-11-07	Friday		Maintenance																							
2008-11-08	Saturday																					05:08 Persson				
2008-11-09	Sunday																					(18-27 GHz)				
2008-11-10	Monday														06:08 Pestalozzi											
2008-11-11	Tuesday														20&23 GHz	GEO-VLBI										
2008-11-12	Wednesday																									
2008-11-13	Thursday		Maintencance																							
2008-11-14	Friday																					05:08 Persson				
2008-11-15	Saturday														06:08 Pestalozzi							(18-27 GHz)				
2008-11-16	Sunday														20 & 23 GHz											
2008-11-17	Monday																	GEO-VLBI								
2008-11-18	Tuesday																									
2008-11-19	Wednesday		Maintenance																							
2008-11-20	Thursday																									
2008-11-21	Friday														06:08 Pestalozzi							05:08 Persson				
2008-11-22	Saturday														20 & 23 GHz							(18-27 GHz)				
2008-11-23	Sunday																									
2008-11-24	Monday																	GEO-VLBI								
2008-11-25	Tuesday																									
2008-11-26	Wednesday		Maintenance																							
2008-11-27	Thursday																					05:08 Persson				
2008-11-28	Friday											04:08 McGroarty (22 GHz)										(18-27 GHz)				
2008-11-29	Saturday																									
2008-11-30	Sunday																									
		LST								12												0				
		UT	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23

04:08 McGroarty et al. *Observations of H2O Masers around Herbig Ae/Be Protostars*

05:08 Persson et al. *Spectral line survey of a protostar*

06:08 Pestalozzi et al. *Class II methanol masers in the northern hemisphere*
