

OSO 20m - February 2021

AOHO v1.2
Created 24-Feb-2021.

- O2020b-05 Deuteration budget at early low-mass star formation (cont'd) (Wirström et al.)
- O2020b-04 Molecular Gas of Super Spiral Galaxies (Gorski et al.)
- O2019b-03 Continuum of extragalactic sources and H₂CO absorption (Black et al.)
- O2020b-08 Molecular emission of entire clouds with stratified sampling (Kainulainen et al.)
- O2020b-06 Molecular content of the outflows of 4 red supergiants (Andrews et al.)

Light blue fields indicate time available for maintenance
