

OSO 20m - March 2021

AOHO v1.3
Created 12-Apr-2021.

- 02019h-03 Continuum of extragalactic sources and H₂CO absorption (Black et al.)
- 02020h-08 Molecular emission of entire clouds with stratified sampling (Kainulainen et al.)
- 02020h-05 Deuteration budget at early low-mass star formation (cont'd) (Wirström et al.)
- 02020h-06 Molecular content of the outflows of 4 red supergiants (Andrews et al.)
- 02020b-09 **DDT-OSO20M-03** Optical depths of dense gas lines (pilot study) (Puschnig et al.)

Light blue fields indicate time available for maintenance
